Ditch the VPN:

Modern Secure Access with Entra ID SSE

Hi,

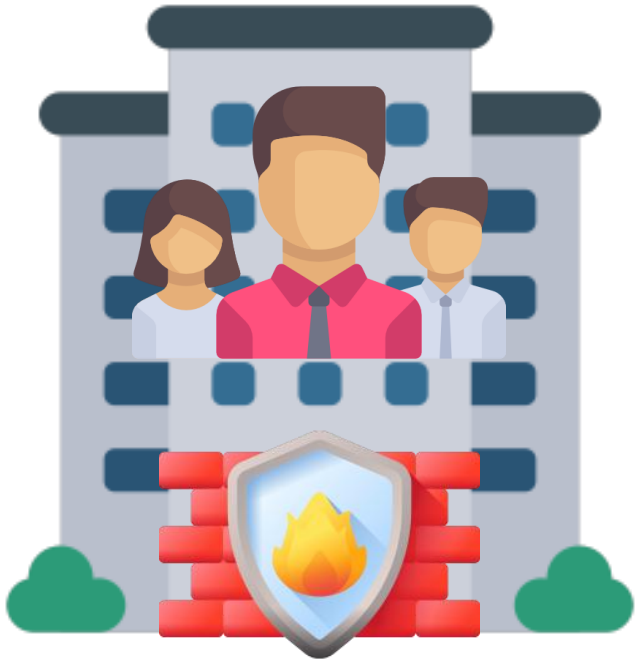
Cloud Practice Lead @ XYLOS

Jan Claes

22 years of experience in On-Premises, Hybrid and Cloud environments

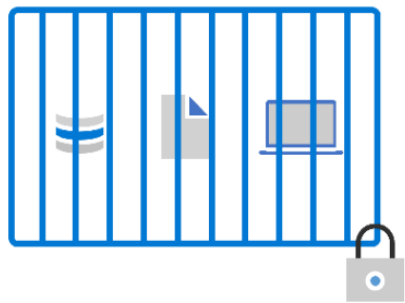
https://www.linkedin.com/in/jan-claes-100880/

In the past…

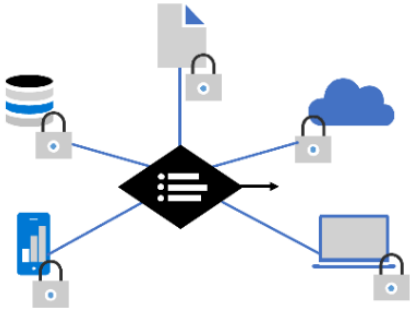


Secure assets where they are with Zero Trust

Simplify security and make it more effective

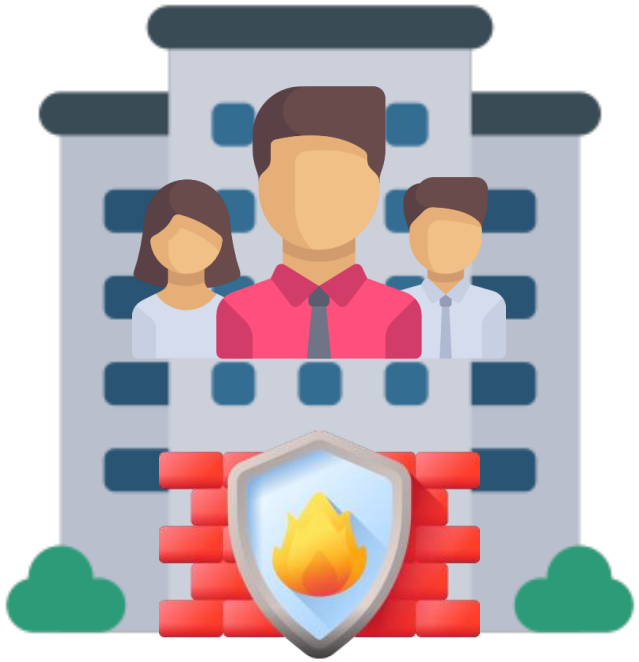


Classic Approach
Restrict everything to a 'secure' network

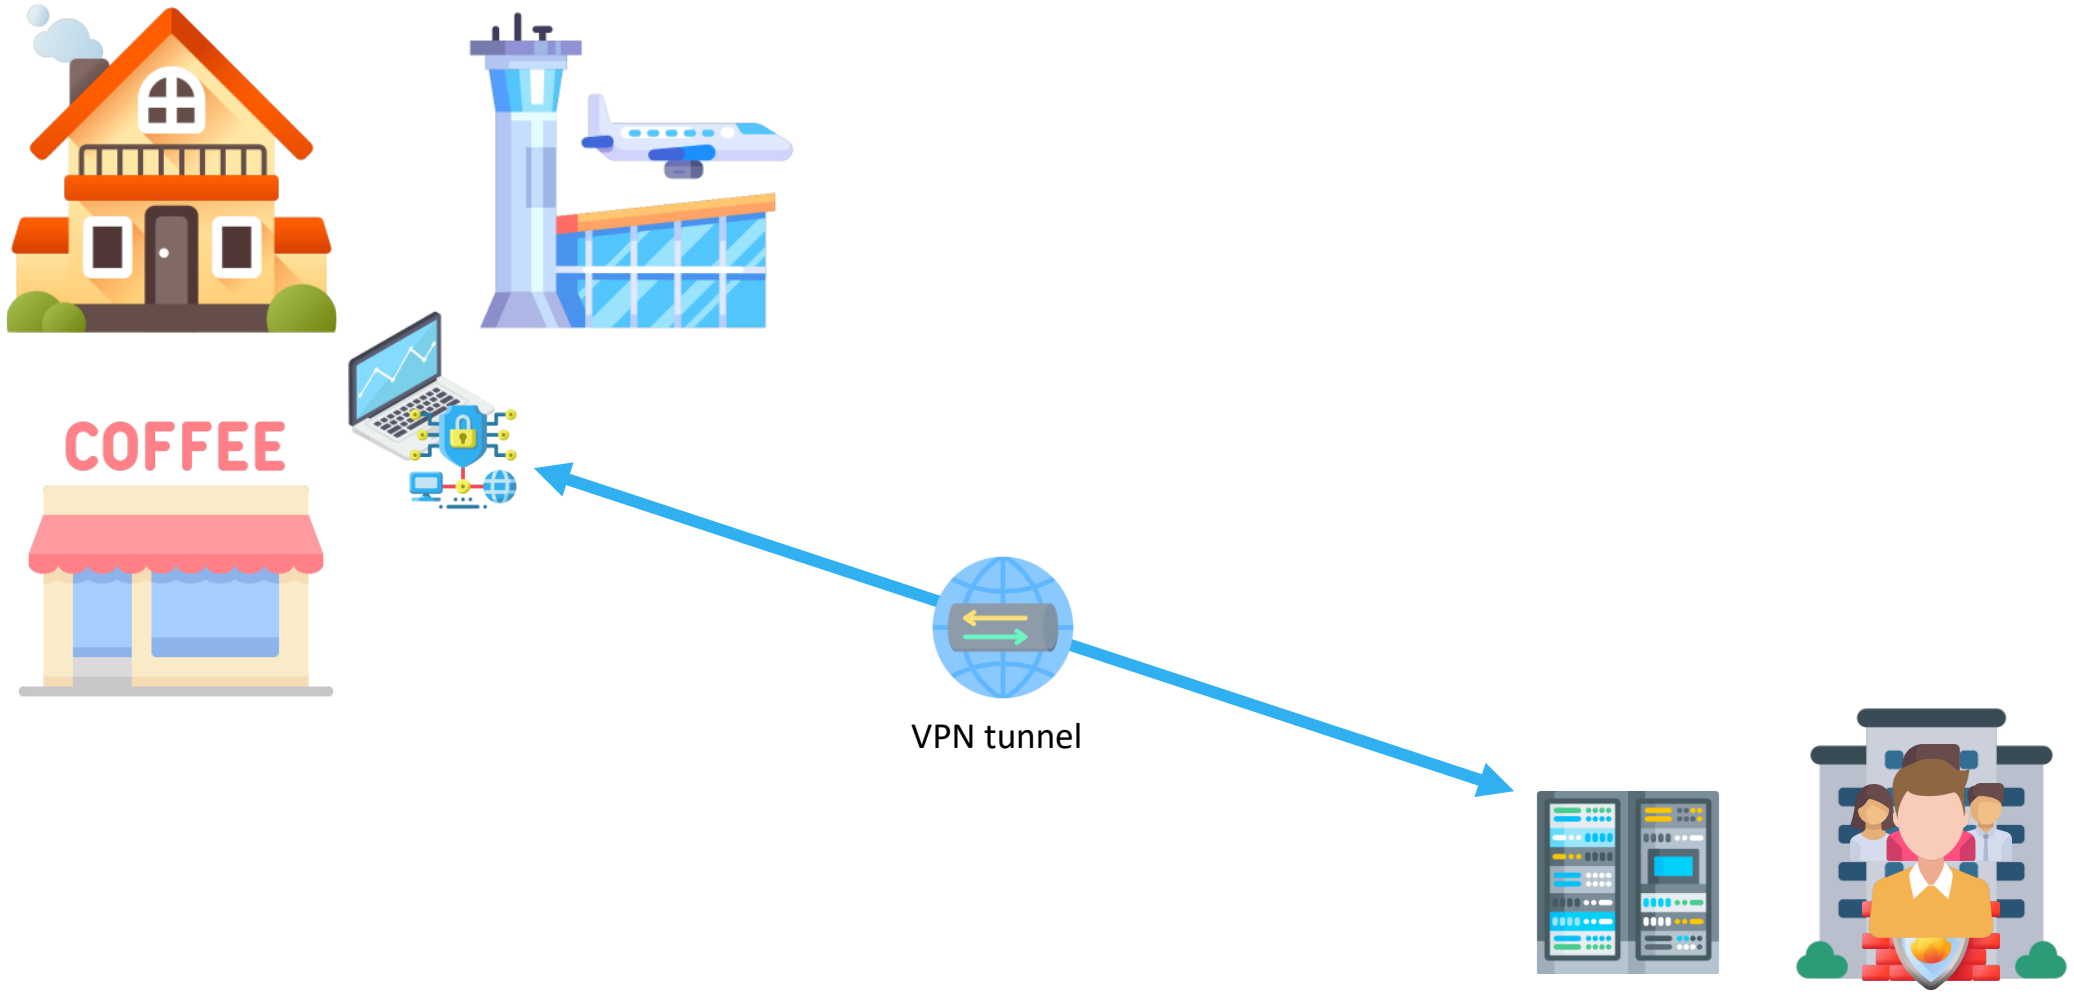


Zero Trust
Protect assets anywhere with central policy

Source: Microsoft Security blog



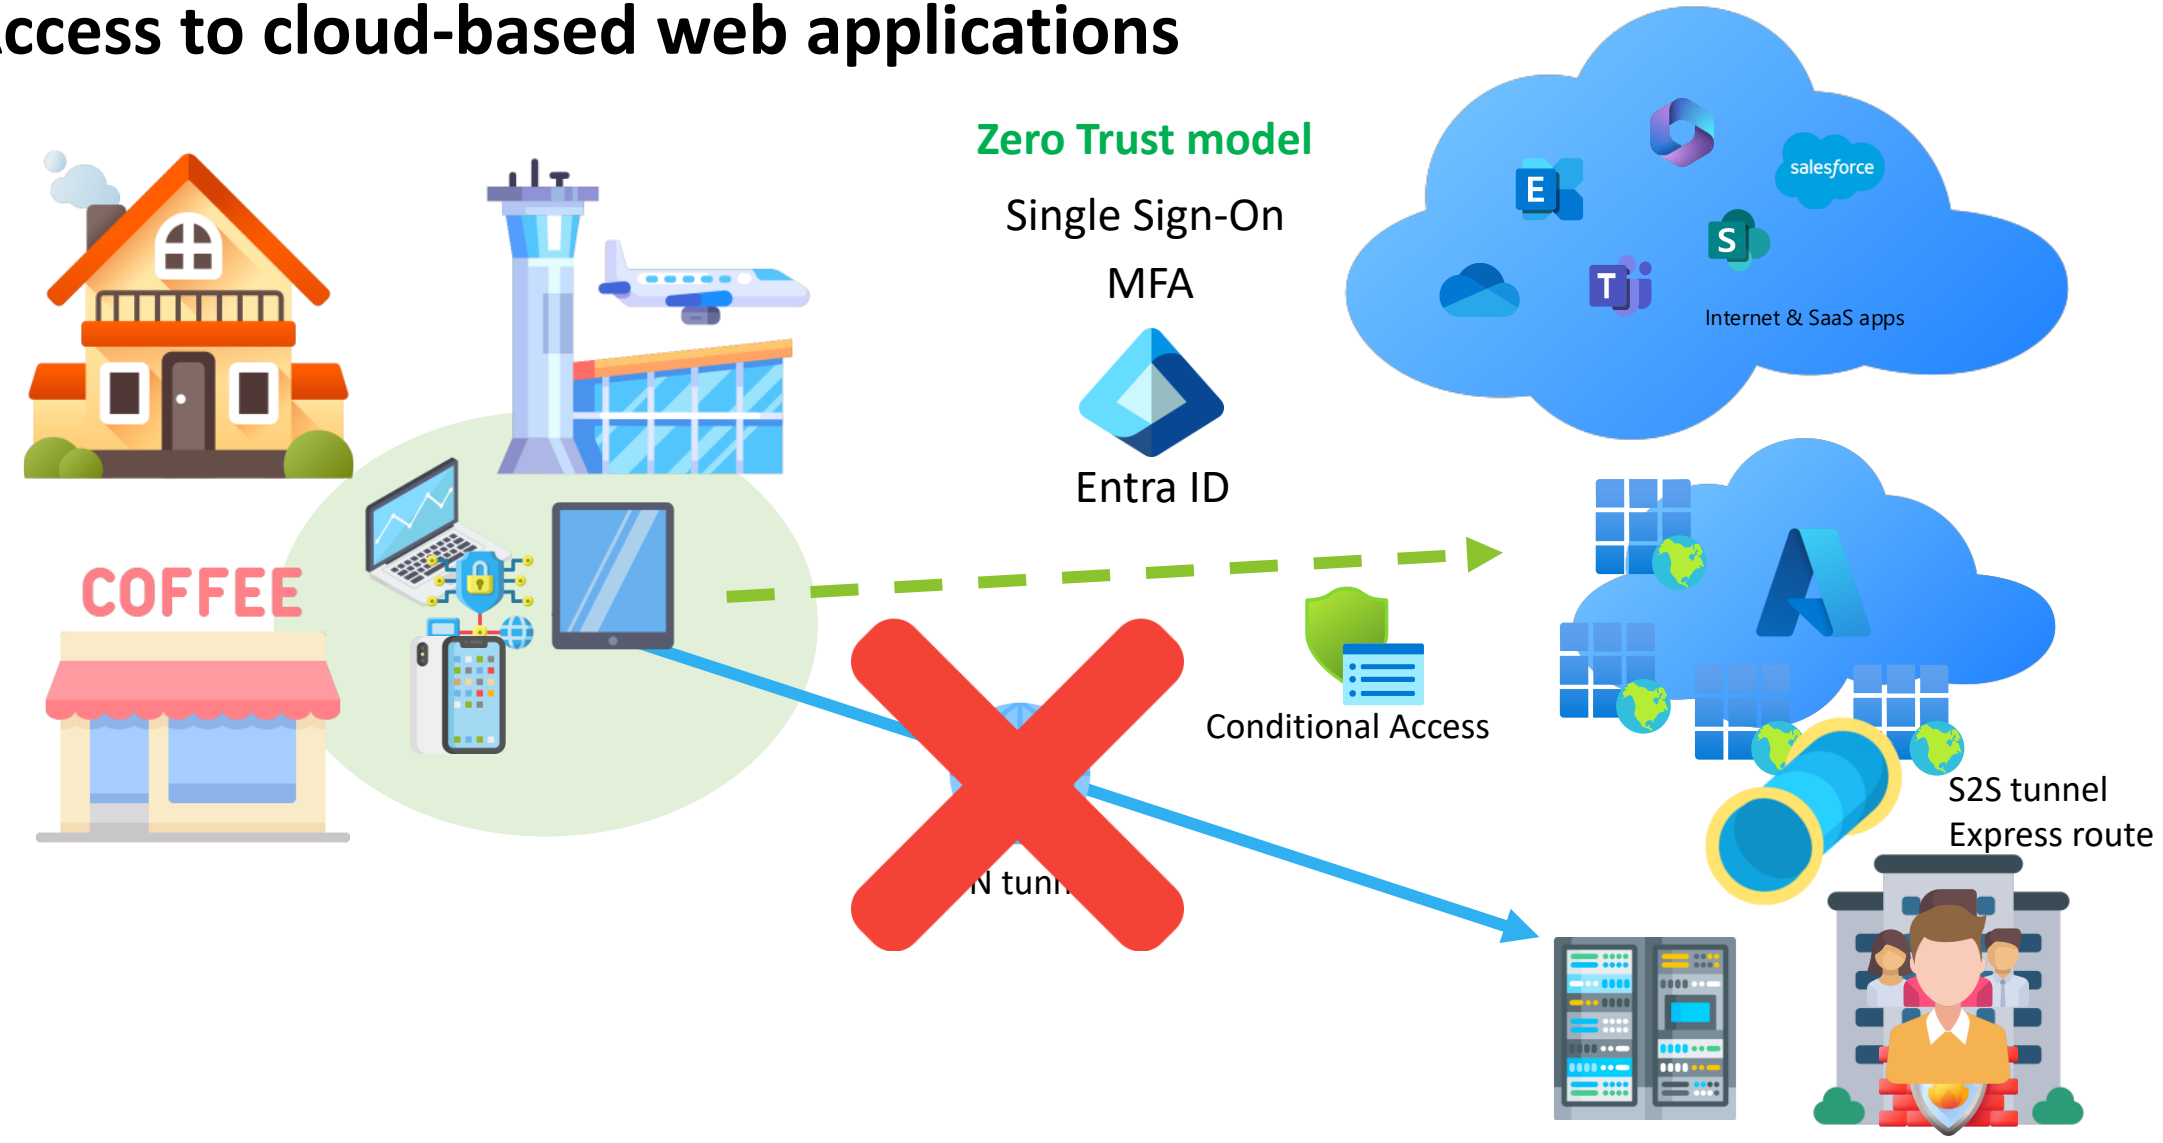
Access to on-premises applications with (legacy) VPN



In a modern (IT) world…

Using web apps (PaaS) and SaaS solutions

Access to cloud-based web applications



In an Even More Secure and Connected World…

Using Entra ID Global Secure Access

Microsoft Entra Private Access

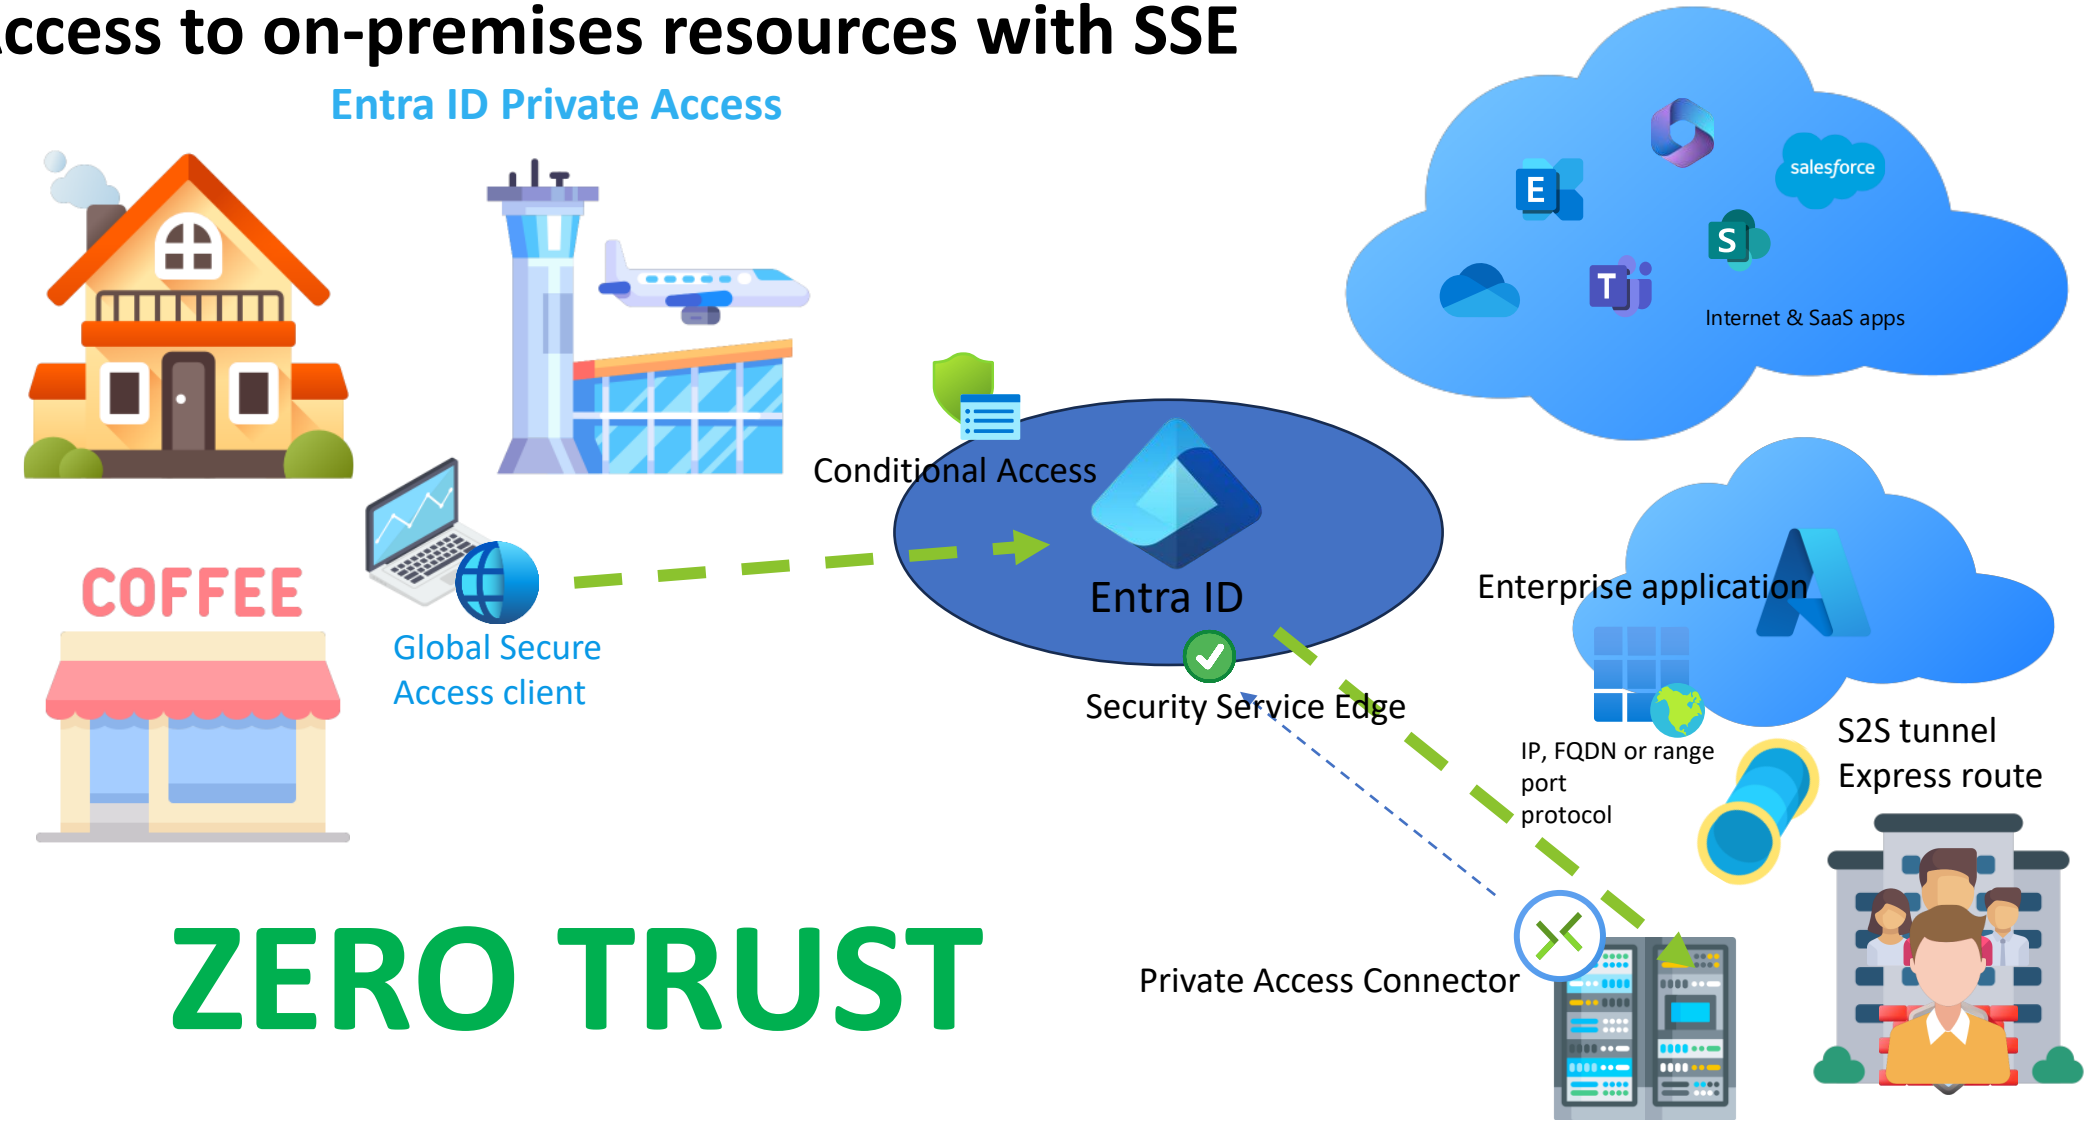
Key features

- Zero Trust-based access (ZTNA)
- Per-app access for TCP and UDP apps
- Modernize legacy app authentication (Identity-centric)

Licensing overview

- Microsoft Entra ID P1 or P2 license is a prerequisite for using Microsoft Entra Private Access
- Required license:
  - standalone Microsoft Entra Private Access license (€ 4,70/user/month)
  - Microsoft Entra Suite license (€ 11,20/user/month)

Access to on-premises resources with SSE



ZERO TRUST
